Property Highlights

Introducing Centennial Yards, the largest city center redevelopment in the southeast US.

Over 50 acres of former rail yards will be transformed into more than a dozen new city blocks, with up to 12 million square feet of mixed use development, including thousands of residential units, thousands of new hotel rooms, millions of square feet of office space and opportunity for up to 1 million square feet of retail, museums and attractions.

Centennial Yards is uniquely designed with an unprecedented amount of activated street front. Parking is concentrated below complex, to enable the flow of an uninterrupted street scape.
